

Domestic Electrical Services

Electrical safety in the home is of paramount importance to us, whether it is a new installation or repairs to an existing one.

Our dedicated team of service electricians is focused on keeping you safe and secure 24/7 including a free visual inspection of your home which can be organised by arrangement.

Things to look out for in your home may include some of the following: Old non-compliant cabling Dangerous old fuse boxes Old sockets that get hot when used Fuses that blow overloaded circuits No main earth stake Too many adaptors and power boards

Wiring done by un-qualified people

Our skilled electricians are available round the clock (After hours call out fees apply) simply by calling our normal office number 01579 383020. You can be assured of a quality, caring and cost effective service for all your needs. At Olver Electrical Contractors we pride ourselves on our integrity and value the trust our clients place in us by allowing us to work in their homes and we make every effort to leave our clients homes as we found them.

We offer competitive quotation services to property managers, property investors and homeowners alike for all rewiring, home improvement/extension work along with the following services: Security Lighting
